Receive a free offer with the purchase of Planned Maintenance Service

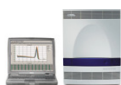

For a limited time, receive a free offer when you purchase a Planned Maintenance visit for selected Applied Biosystems instruments. Recognized as “Best in Class” worldwide, AB Global services provides the highest quality support for Applied Biosystems systems. Only our certified Service engineers receive regular factory training on the latest technical developments, repair procedures, software revisions, and application updates.

Purchase a Planned Maintenance (PM) service visit and receive the following free:

For 7000, 7300, 7500, 7500 Fast Real-Time PCR Systems

- Replacement of halogen lamp

For 7000, 7300, 7500, 7500 Fast, 7900HT Fast Real-Time PCR Systems

- TaqMan® RNase P Instrument Verification Plate and run
- Spectral Calibration Kit and calibration

For 3100, 3100-Avant, 3130, or 3130xl Analyzers

- One Capillary Array
- One hour of user maintenance training
- Spectral Standard Kit and standard run

For Procise® Protein Sequencing System

- Beta-lactoglobulin Sequencing Standard

For 310 Genetic Analyzer

- One Pack of Capillary
- Matrix Standards Kit and run

For 3730 and 3730xl DNA Analyzers

- Spectral Standards Kit and run

Planned Maintenance Advantages

- Achieve critical lab objectives by optimising instrument performance
- Help ensure instrument uptime and more consistent results
- Eliminate issues before they arise by proactively replacing common wear items, fine-tuning critical components, and optimising instrument performance
